Institute for Modelling Hydraulic
and Environmental Systems

Department of Hydrology
und Geohydrology
Prof. Dr. András Bárdossy

Information about the course Hydrogeological Investigations / Field Course Hydrogeology in the summer semester 2019

The first lecture will take place on **Friday, 12 April 2019**
from **14:00-17:15** in room **PWR 61 - 1.002**. There the details
about the further course of the course and the field
internship in Horkheim near Heilbronn will be announced.

Further lecture dates can be found in the C@MPUS under
the course "Field Course Hydrogeology". The
contents/topics are also stored in the C@MPUS under the
module "Hydrogeological Investigations".

The number of participants is limited to 24.

**The participation in the field course weekend (28./29. June 2019) as well as in
the final colloquium on 19.07.2019 is mandatory and a prerequisite for
admission to the exam!**

If places are available, it is also possible to participate only in the field course
weekend itself.

Students who would like to participate in this course are requested to contact
Dr. Jochen Seidel in advance.
